## **SPEC SHEET**

# **Nest Learning Thermostat**

Programs itself.
Then pays for itself.

# Meet the Nest Learning Thermostat.

The third gen Nest Learning Thermostat is more beautiful than ever, with a thinner, sleeker design and bigger, crisper display. And it's proven to help save energy. In independent studies, the Nest Thermostat saved an average of 10-12% on heating bills and 15% on cooling bills.

## How does it work?

# **Auto-Schedule**

No more confusing programming. It learns the temperatures you like and programs itself.

## Remote control

Connect the Nest Thermostat to Wi-Fi to change the temperature from your phone, tablet or laptop.

# **Nest Leaf**

You'll see the Leaf when you choose a temperature that saves energy. It guides you in the right direction.

# Early-on

Nest learns how your home warms up and keeps an eye on the weather to get you the temperature you want when you want it.

#### **Auto-Away**

The Nest Thermostat automatically turns itself down when you're away to avoid heating or cooling an empty home.

## **Energy History**

See when heating and cooling were on and what affected your energy use.

## Safety Alerts

Get an alert on your phone or tablet if your home gets dangerously hot or cold.

# **Farsight**

When Nest Thermostat spots you across the room, it lights up beautifully to show you the temperature you've set or the time.
